BEST CHAIRS

Best Chairs was founded in 1962 and is family-owned by the Lange family with headquarters and manufacturing facilities in Southern Indiana. The company's success story began with a very simple theme: make the best quality product at the most affordable price. Today their facilities cover over 1,100,000 square feet in five locations with over 1,000 employees and is growing to become one of the largest furniture manufacturers in the world. All Best chair styles are second-to-none for strength and durability. Solid wood construction guarantees consistent quality and product strength in all styles. The company remains committed to quality and the satisfaction of their customers.
