BY STEINHAFELS

LUXURY ROLLINS COLLECTION

Lane was founded in 1912 and has been a recognized furniture brand since then. The brand has been owned by several furniture manufacturers, but to this day, Lane upholstered furniture is still produced in the United States. Lane has a total of 19 factories totaling 7.5 million square feet and employing 4,500 Americans. A quality control team at each of the factories ensures that your furniture is up to their standards...and yours!
