Lloyd Loom®

Our signature Lloyd Loom® material begins with a roll of cellulose fiber. The fiber is spun into a thin strand to create a spool. Over 500 spools of fiber strand are fed into one Lloyd Loom® to create our wicker fabric. Fiber is also spun around aluminum wire and cut to create stakes. Stakes are added during the weaving process for extra strength and resilience. The wicker is then given a flexible coating to protect it from moisture and prevent unraveling.

Lloyd Loom® wicker fabric is contoured over our sturdy, fully welded aluminum frames. Upholstered furniture is painted and heated in our Durium finish to ensure years of use. Finished furniture ships from our facility in Menominee, MI to discerning customers nationwide.

Patented in 1917 by Marshall B. Lloyd and updated by the Flanders family to meet modern demands, Lloyd Loom® is the most sought-after all weather wicker available today.

Lloyd Loom® is woven into different patterns to accentuate the designs of our collections.

Wicker Touch-Up Paint \$35.00

LIMITED RESIDENTIAL WARRANTY

Lloyd Flanders® warrants its furniture to be free from manufacturing defects for a period of three years from the date of purchase. Fabrics (except COM), cushions, faux concrete table tops, and stone table tops are warranted for a period of one year from the date of purchase. This warranty is exclusive to the original purchaser. Routine care and maintenance are required to support the benefits of this warranty. This includes but is not limited to annual inspection of the frames and touch-up of any minor damage. Abuse or neglect of the furniture voids the warranty. Do not store your furniture upside down. This could allow water to accumulate and freeze within the frame, causing structural damage that is excluded from coverage.

WARRANTY SERVICE

If you suspect a manufacturing defect, provide your local Lloyd Flanders® retailer with a dated proof of purchase (e.g., receipt), photographs (digital preferred) of the item, and the model and serial numbers of the piece. The retailer will identify or verify the problem and notify Lloyd Flanders. Lloyd Flanders will review each claim and determine the appropriate action. If it is determined that a product is defective in material or workmanship, Lloyd Flanders will repair or, at our option, replace the item in whole or in part at no cost to you.

HOW STATE LAW RELATES TO THIS WARRANTY

This warranty gives you specific legal rights. All other warranties, including the warranties of merchantability and fitness for a particular purpose, are expressly disclaimed.

This warranty is effective on product purchased at retail after March 1, 2017. For full warranty details please see your local retailer or visit www.lloydflanders.com.

CARING FOR LLOYD FLANDERS® CASUAL FURNITURE

Lloyd Flanders® all-weather furniture will remain beautiful with minimal care and maintenance. Use a soft brush to remove organic material like dust and leaves. For spot cleaning, the frame, wicker, and cushions can be washed with a mild detergent and water. Rinse with clean water and dry thoroughly before use.

As with any fine outdoor furniture, timely care of the paint finish is necessary to protect it from the elements and preserve its strength and beauty. If the wicker finish becomes worn, carefully clean and dry the affected area. Repaint with Lloyd Flanders touch-up paint (available from your local retailer). Allow to dry thoroughly before use. If the finish on the frame should scratch or chip, lightly sand the problem area with fine grit sandpaper. Clean and dry the area, then repaint with Lloyd Flanders touch-up paint.

Lloyd Flanders only uses FSC-certified Brazilian teak. With time, it will weather and form a handsome silver-gray patina. For general cleaning, rinse with fresh water then gently scrub the wet furniture using a soft bristled brush and mild detergent. Rinse with more fresh water to remove any remaining detergent.

Other Materials

In addition to our signature Lloyd Loom product offerings, Lloyd Flanders also offers a unique selection of all-weather furnishings made of vinyl, aluminum and teak.

Lloyd Flanders vinyl furniture is made with 100% vinyl, UV inhibitors are added to prevent excessive fading and it has no added fillers. This assures that our vinyl will remain soft and pliable through many years of use while holding its shape.

Our premium teak wood is ideal for outdoor furniture because of its high oil content, inherent strength, and tight grain. In the elements, teak will age over time and can mature to a beautiful, silvery finish. We only use sustainably harvested FSC-certified teak in our products.

Lloyd Flanders has been synonymous with premium outdoor furniture for more than 100 years, and our reputation is demonstrated in every piece we craft today.

About Our Throw Pillows

Fiber Down Pillows contain 100% Fine Denier Polyester for Premium Comfort.

All Lloyd Flanders Throw Pillows contain 100% Polyester Fill to meet the demands of indoor and outdoor living.

Hypoallergenic - Hydrophobic - Antimicrobial - Mildew Resistant

COM PROGRAM

For your convenience, we are providing shipping labels for your COM fabric.
 Please be sure to clearly provide order information on the label as this will aid in the process of your order.
 Purchase order must be sent directly to the factory.
 COM orders will be priced at B grade.
 Dealer is responsible for purchase and delivery of fabric to Lloyd Flanders.
 Orders will not be scheduled until all fabric is received.
 Yardage noted in the price book is based on a 54" wide, non-railroaded fabric with a 27" repeat and no welt.
 Dealer is responsible for sending correct yardage. Call our COM Dept for requirements on large cluster flower or patterns with unusual repeats.
 Each fabric must be clearly tagged with order number and customer name.
 Cutting of fabric should be sent to COM Dept marked with correct side up and pattern direction.
 Contact Customer Service for contrast welt or cord COM requirements.
 Please note directional patterns on seamless cushions will see the pattern run the opposite direction when turning the cushion over.

About Lloyd Flanders Antiqued Teak

Lloyd Flanders Antique Teak Tables bring a distinct, lasting style to your outdoor space. Sustainably harvested from Brazilian teak trees, each piece receives a gray finish designed to produce the antique appearance and preserve the natural color longer than traditional teak.

Add this versatile line of occasional, dining and umbrella tables to your outdoor seating for the premium outdoor living experience.

Caring For Your Antique Teak Furniture

Your new teak furniture is easily maintained and only needs periodic cleaning to ensure years of service. First, the teak furniture should be washed down with fresh water.

Avoid the use of high pressure or “power washers” as this pressure can affect the surface of the teak. Wipe the wet furniture using a soft cloth and a solution of mild detergent and warm water.

When finished, rinse the furniture with clean water to remove any detergent.

Caring For Your Travertine Top

Maintenance – Since this top is sealed, it requires only regular wiping with water or occasionally with mild soapy water.

Do not use vinegar; cleaners that contain acid, abrasive cleaners, or furniture polish.

Do not use a high-pressure wash. If a stain does occur, it can be easily removed with fine (0) steel wool or finer grit sand paper. The affected surface then needs to be treated with a stone sealer for further protection.

Additionally, a reapplication yearly of a stone sealer is suggested. Stone sealer is available in any hardware or building supply store. For the best long-term maintenance, store the top in a dry location during the off-season and do not rest it on its side.

Caring for Lloyd Loom® Casual Furniture

Lloyd Flanders® All Weather Wicker will remain beautiful with minimal care and maintenance.

Regularly vacuum the wicker and cushions with a soft brush or upholstery tool to remove organic material and surface soil. If they do become soiled, both the frame and the wicker can be washed with a mild detergent and water. Please use a wet sponge or soft brush to clean the soil from the surface. Rinse with clear water and dry thoroughly before use.

As with any fine outdoor furniture, timely care of the paint finish is necessary to protect the furniture from the elements and preserve its strength and beauty. If the wicker finish becomes worn, carefully clean and dry the affected area. Repaint with Lloyd Flanders® touch-up paint. Allow to dry thoroughly before use.

If the finish on the frame becomes scratched or chipped, first lightly sand the problem area with fine grit sandpaper. Clean and dry the area, then use Lloyd Flanders touchup paint.

Caring for Lloyd Flanders Woven Vinyl Casual Furniture

Lloyd Flanders® uses only premium polyethylene woven materials for our luxury outdoor furniture. While this material is designed to endure the outdoor environment, it is beneficial to make sure the product is cleaned and maintained for your ultimate satisfaction.

Vacuum or use a soft brush on woven material and cushions to remove organic material and loosen surface soil. Wash with a mild detergent and clean water solution to remove soil. Rinse and allow to dry thoroughly before use.

Caring for Stainless Steel

Lloyd Flanders® uses 304 Grade Stainless Steel with an Electro-polished finish to create a featureless surface that resists contaminants, providing additional protection.

Stainless steel surfaces require routine cleaning to maintain a desirable appearance as well as preserve corrosion resistance. Cleaning removes contaminants such as dirt, fingerprints, and stains from the micro-layer of Chromium Oxide, which protects the surface.

When cleaning stainless steel, it is important to remember to avoid abrasive cleaning tools or substances such as powder-based cleaners, as they can damage some finishes permanently. If an abrasive substance is needed, test on a small, inconspicuous area first. Pumice is recommended as a “soft abrasive.” Cleaning with warm water and a soft cloth or sponge will most often take care of mild stains and loose dirt. Rinse with clean water and wipe dry to reduce water stains.

Fingerprints, oils, and greases should be cleaned with a chlorine-free cleaning compound by applying a small amount to a soft cloth and wiping. If streaks remain, wash with warm water and a soft cloth or sponge. Stainless steel cleaners and polish are available at many retailers. Do not use cleaning compounds in enclosed spaces or while smoking.

Lloyd Flanders recommends the use of Dursol Metal Cleaner and Polisher, as well as Autosol Metal Finish to meet your stainless steel cleaning and polishing needs.

Important Notes: Avoid cleaning materials that are abrasive or potentially abrasive. Avoid cleaners that contain Chlorine.

Storing Your Stainless Steel Furniture

Always thoroughly clean furniture before storing. When storing stainless steel furniture, ensure that it is stored in an upright position to allow water to drain. Storing furniture upside down may result in water accumulating and freezing inside the frame, causing damage to structural integrity. Furniture should be stored in a dry place such as a garage, garden shed, or basement.
