

MAVIN BEDROOM COLLECTION

American Made Furniture, from forest to fabrication. Located in the rolling farmland of Ohio’s Amish country, MAVIN is a third generation of lumber specialists who hand-select the best of the cherry, oak, maple, walnut or elm tree to bring you our quality products. Their family elects and harvests the timber, shapes it in their own sawmill, and then carefully checks it in their own dry kilns.They know the building of solid wood furniture from its roots. Winesburg Lumber had its origins as a two-man logging operation more than three generations ago. As the younger generation became a part of this growing organization they felt that diversification was a path for future success and growth, and so they began building doors and contract grade chairs. This has evolved into complete lines for bedroom, dining, occasional and home office.

MAKE IT YOUR OWN!

Unlock your inner designer. Customize your Mavin furniture in a few easy steps. Wood samples have been provided near the bedroom collections to show the variety of finishes for your new piece. Then head over to the DesignPal in the dining area to start creating your dream bedroom. You can also design from the comfort of your own home by using the Design pal online found at <https://public.designpal.live/>

FEATURES AND BENEFITS

MAVIN collections are available in a wide array of paints and stains to allow you to create a truly customized look. Each piece also features a post-catalyzed varnish that has been engineered to provide:

DURABILITY

A harder, more durable finish that provides superior resistance to moisture, wear, chemicals & heat, making it ideal for high-use areas.

PRESERVATION

Maintains furniture’s appearance and integrity over time, even with regular use, and has excellent resistance to yellowing & oxidation.

AESTHETIC

A clear finish that enhances the natural beauty of the wood while providing a silky smooth, professional appearance.
