

## TACOMA

### POWER RECLINING LEATHER SOFA

Simon Li Furniture, located in Shanghai, was founded in 1996 by Danish businessman Simon Lichtenberg. He wanted to create the foremost leather seating company. The key was in bringing together the best attributes and practices from around the world. His company grew by combining the highest level in design, comfort and quality, and delivering value that surpassed most products available at that time. By combining the highest level in design, comfort and quality into every piece of furniture, Simon Li Furniture has become a world leader in leather furniture. Constant checks on incoming raw materials in their in-house lab, high quality standards of construction and manufacturing, monitoring of all work in process, and end-of-the-line final quality inspection ensures consistent and high quality products.
